CC-M00: Kindergarten Math, Continued	CC-K.CC Counting and Cardinality, Continued	4a. Count to tell the number of objects: When counting objects, say the number names in the standard order, pairing each object with the one and only one number name and each number name with one and only one object.	Early Math Counting and Comparing	1. Uses one-to-one correspondence when counting objects.

Counts to find how many are in a group up to 5. 4. Counts to find how many are in a group up to 10. 5. Counts to find out how many are in a group greater than 10.
		5. Count to tell the number of objects: Count to answer “how many?” questions about as many as 20 things arranged in a line, a rectangular array, or a circle, or as many as 10 things in a scattered configuration; given a number from one to 20, count out that many objects.	Early Math Counting and Comparing	2. Counts to find how many are in a group up to 5. 4. Counts to find how many are in a group up to 10. 5.
