

Discover How Galileo® Technology Supports Educators Building a Better World

Complimentary Galileo K-12 Online Webinar Series

We know that you, as an educator, work every day to meet the goal of improving education. Our goal is to help you achieve yours. We have created new technology for Galileo Online that we know can be particularly helpful. The ATI Field Services Coordinators are offering a series of webinars to introduce you to some really cool technology. Please join us in demonstrations of:

1. Technology that enables you to build, rapidly disseminate, and implement your own local digital curriculum online.
2. Assessment technology created for our *comprehensive assessment system* that enables you to use information from assessment data to both adjust your curriculum as needed and to establish intervention groups to be provided differentiated instruction.

Additionally, we would like to show you our online assessment technology that enabled us to build over 9,000 unique assessments containing seventeen different types of technology enhanced items. You will also want to have a look at our online testing platform that made it possible to administer and score responses of over 2,000,000 students this year, and you will want to see our student *Dashboard* that supports independent learning preparing students to thrive in and shape the future.

A Brief, Interactive Overview of Galileo K-12 Online

Date: Tuesday, March 29, 2016

Time: 1:00-1:30 pm EDT/10:00-10:30 am MST

Register Now

This session will explore the Galileo K-12 Online Instructional Improvement and Effectiveness System. Participants will receive a brief overview of the robust features of Galileo including curriculum, assessment, instructional effectiveness, and reporting tools. During the session, participants will experience a guided demonstration including how to navigate through Galileo and access *Dashboards* from which to view and interact with actionable, real-time data on student learning and instructional effectiveness measures. Additionally, participants will view the newly redesigned student testing interface through the *K-12 Student-Parent Center*.

Intended Audience: District/charter administrators, curriculum and/or assessment staff, principals, and teachers.

Seeing the Big Picture with Galileo's Comprehensive Assessment System

Date: Wednesday, April 13, 2016

Time: 2:00-2:30pm EDT/ 11:00-11:30pm MST

Register Now

Participants will explore Galileo's robust *comprehensive assessment system*. They will discover how comprehensive assessments evaluating the same standards as state summatives can be a part of their student progress monitoring and educator evaluation programs. Special emphasis will be given to demonstrating Galileo *Test Blueprints, Item Parameters, Detailed Analysis, Intervention Alert*, and other reports and tools that can be used to differentiate instruction to guide students to successful outcomes.

Intended Audience: District/charter school administrators and teaching team leaders.

New Ways to Look at Curriculum Development Using Galileo's Digital Curriculum Platform

Date: Tuesday, May 24, 2016

Time: 2:00-2:30 pm EDT / 11:00-11:30 am MST

[Register Now](#)

This webinar will demonstrate how new and existing curriculum content, instructional materials, and assessments can be integrated into one comprehensive system, the Galileo *Digital Curriculum Platform*. Participants will learn about the *Digital Curriculum Builder* tools as well as how to disseminate District curriculum and *Unit Plans* via the *Galileo Teaching Dashboard*. Additionally, the session will demonstrate how teachers can conveniently access curriculum and instructional materials from the *Digital Curriculum Explorer* on their *Dashboard*.

Intended Audience: District/charter administrators, curriculum specialists, instructional coaches, and teachers.

Instructional Effectiveness Tools: A Defining Component of Galileo

Date: Thursday, June 16, 2016

Time: 4:00-4:30 pm EDT / 1:00-1:30 am MST

[Register Now](#)

This session will provide an overview of the Galileo Instructional Effectiveness platform. Participants will see how Galileo K-12 Online contains the components required to support instructional effectiveness initiatives within this one customizable system.

Intended Audience: Administrators and district/charter school personnel responsible for managing the district-wide educator evaluation.
