

Jump-start INSTRUCTIONAL TRANSFORMATION

in 90 days with WestEd
and ATI's Galileo® K-12!

The **Instructional Transformation Academy** aligns WestEd's 4 domains framework with Galileo K-12 Online instructional improvement and effectiveness system to help your school integrate core areas of focus with critical, data-driven practices for achieving rapid and significant improvement.

The **Instructional Transformation Academy** provides an opportunity for principals and their teams to jump-start instructional transformation in their school in 90 days!

Leaders will learn how to implement four early actions for rapid school improvement through a four-part training series.

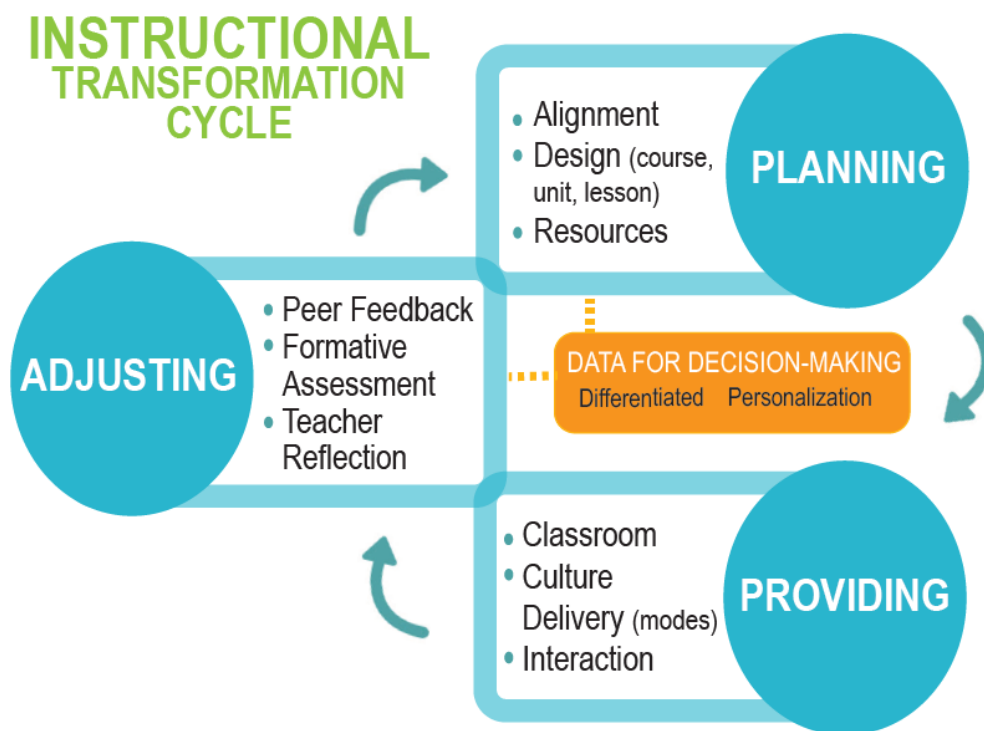

Watch for fall 2019 Academy dates coming soon.

The Principal is the Chief Transformer

Learn & Implement 4 EARLY ACTIONS for rapid school improvement:

- establish practice-focused collaboration
- map the instructional system using your Galileo K-12 student data
- see through students' eyes
- internalize and innovate

ATI's instructional improvement and effectiveness system, **Galileo® K-12**, is a comprehensive, research-based, and standards aligned system providing a user-friendly approach to real time and actionable integration of curriculum, assessment, instructional effectiveness, and reporting tools. **WestEd's school improvement teams** give educators the edge and knowledge to utilize the data from Galileo to inform decision making focused on promoting student learning across all subject areas and all grades.
