Comprehensive Instructional Improvement and Instructional Effectiveness System

Innovative technology supporting local initiatives to enhance learning

Staff View Dashboard

Actionable Information for Teachers - All in One Location within Galileo® K-12 Online

Teachers across the nation are faced with providing instruction aligned with local curriculum and with delivering differentiated instruction to meet the needs of individual students and groups of students with similar learning needs. The staff view Dashboard for teachers within Galileo provides, all in one place, actionable information to meet these needs.

Quick View of Events

View upcoming and recently accomplished events, such as local curriculum units and assessment schedules.

Easy Implementation Tools

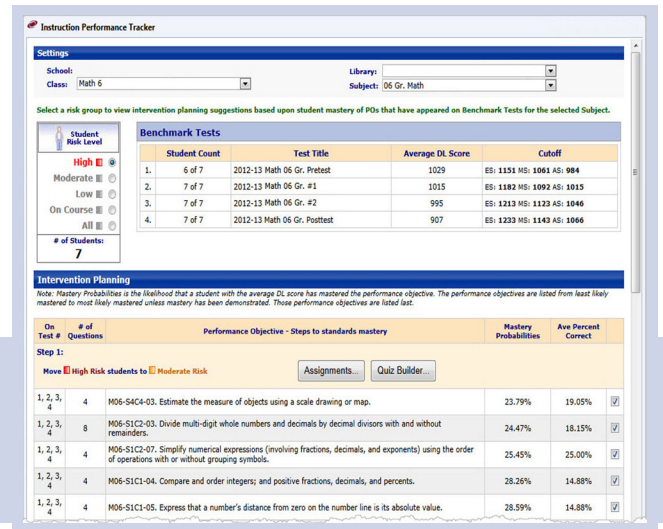

Examine unit content and create, schedule, and implement online or offline lessons and assignments aligned to unit standards.

Real-Time Information

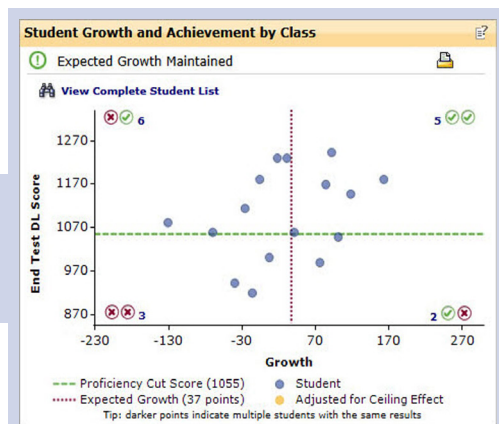

Build and administer formative assessments embedded in lessons providing real-time explanations for students' incorrect responses.

Targeted Instruction

Implement targeted instruction to accelerate growth using Item Response Theory (IRT) to identify next-instructional-steps for students at varying levels of risk for not meeting standards.

The Instruction Performance Tracker widget provides instructional recommendations for specific groups of students based on risk-level data.

Student Growth and Achievement by Class widget cross-classifies student achievement with student growth data.

Meeting Individual Learning Needs

View individual student assessment histories and devise plans for students needing assistance.

Decision-Making Data

Determine the extent to which a student has met expected growth targets; and implement interventions, informed by IRT, to accelerate growth to meet goals.

One-Click Student Information

Identify current student performance and access student and parent contact information from the class roster.
