

Galileo® Pre-K Online

LEARNING ON DEMAND

Professional Development Series for Galileo Users

January - March 2019

The ATI Professional Development Department offers complimentary online **Learning on Demand** sessions in support of educators as proficient users of Galileo® Pre-K Online technology with the goal of enhancing children's learning. Participate in live sessions or watch the suggested recorded sessions.

LIVE SESSIONS

Use the following link to register for any of the following complimentary live sessions:

Outcomes Analysis Reports

Tuesday, January 15th

Time: 12:00-1:00 pm EST / 10:00-11:00 am MST

Audience: Pre-K educators and lead staff with data analysis responsibilities related to the Galileo G3 Assessment Scales.

Description: This session guides Galileo users through accessing the *Outcomes Analysis* report and analyzing progressive data for one or several of the Galileo G3 *Assessment Scales* over multiple time periods. Additionally, participants will learn how this report can aggregate and disaggregate data for an entire agency, center, class, or at the individual child level.

Using Galileo's Model Curriculum

Wednesday, February 13th

Time: 3:00-4:00 pm EST / 1:00-2:00 pm MST

Audience: Pre-K educators interested in implementing a data-driven curriculum for toddlers and preschoolers.

Description: In this session participants are guided through accessing and incorporating the 32-model lesson plans included in the Galileo *Pre-K Online Curriculum*. Additionally, participants will explore materials, model lesson plans, and activities.

Galileo Parental Toolkit for Spanish-Speaking Parents

Thursday, March 7th

Time: 4:00-5:00 pm EST / 2:00-3:00 pm MST

Audience: Galileo users who want to utilize tools within Galileo to communicate with all parents and caregivers.

Description: Participants are provided an inside view of materials, reports and activities available from the *Pre-K Parent Center* to Spanish speaking families. Session includes how parents can access the *Individual Development Profile*, *Observation Record*, and a Spanish-version of activities. Additionally, participants will learn how to copy and print an assessment scale in Spanish.

RECORDED SESSIONS

For support on implementing Galileo as a new user or as a returning user, the experts at ATI recommend you watch the following webinars available now in the *Galileo Help Files*. Head to the *Help Files* to see the full list of recorded sessions available.

Anecdotal Notes

Audience: Teachers, teacher aides, disability specialists, and administrators responsible for documenting or overseeing the documenting of child observations.

Description: This session walks participants through the process of writing anecdotal notes using the Galileo System. Special emphasis is placed on strategies for being accurate and objective when using Galileo to record notes.

Using the Galileo G3 Assessment Scales

Audience: All Galileo users

Description: This session provides participants with an overview of the *Galileo G3 assessment scales*. Participants will learn age-ranged scales, the domains covered, and how scales are structured and sequenced. Participants will also learn how to familiarize themselves with the scales before recording observations.

Linking Assessment to Lesson Planning

Audience: Teachers, teacher aides, and administrators responsible for documenting or overseeing the documenting of child observations.

Description: This session introduces participants to the early intervention cycle of goal setting, assessing, planning for and evaluating children's learning. Participants learn the ways in which assessment data may be used to inform and support the provision of learning opportunities and planning for children.

Creating Class Lesson Plans

Audience: Teachers, teacher aides, and administrators responsible for creating and overseeing the creation of weekly lesson plans.

Description: This session walks participants through the building and editing of lesson plans utilizing Galileo activities.

Reports Overview for Administrators

Audience: Program administrators responsible for overseeing the Galileo system.

Description: This session walks participants through the tools that can aid in monitoring user activity, data entry, parental usage, and outcomes.

Progress Reports

Audience: Teachers, teacher aides, and administrators responsible for interpreting and monitoring children's progress.

Description: This session walks participants through accessing and interpreting the *Progress Report* and the *Individual Progress Report* reports.
